Notes:

This Voter Guide is the 2026 Primary Candidate Voter guide. This packet only lists the report cards for candidates who are on the ballot for the May Primary Election. Additional candidates will be released at a later date leading up to the November General Election.

Democrat report cards are indicated with a blue background and Republican report cards are indicated with a red background.

Ohio Advocates for Medical Freedom is an all-volunteer, non-partisan, non-profit 501(c)(4) organization.

Incumbent ratings are based on medical freedom voting record, sponsorship and co-sponsorship of medical freedom legislation, including legislation that protects children from medical harm as well as their survey answers, public or email commentary on medical freedom issues, and any work done behind the scenes with house/senate members to advocate for OAMF supported legislation. Only incumbents can receive an A+, because they have verifiable records.

Candidate ratings are based on survey answers, public commentary on medical freedom issues, and the public support or promotion of OAMF supported legislation. Because candidates do not have a voting record yet, their maximum grade allowed is an A.

"Medical freedom is a fundamental liberty, and I believe health care decisions should be made by individuals and families in consultation with their doctors — not by government mandates or political pressure. As a conservative, I stand for limited government, personal responsibility, and protecting individual choice. This issue is personal to me as the parent of an adult son with autism who relies on medical and support services, and I know firsthand that one-size-fits-all policies do not work for families with complex needs. Government's role should be to protect access and choice, not restrict or criminalize personal medical decisions, and I will always defend medical freedom and the rights of Ohioans to make these decisions for themselves."

I was one of the first and few legislators standing up to Governor Mike DeWine during the Covid lockdowns and vaccination push. I went after Dr. Amy Acton and her atrocious regulations, rules, and requirements. I was so outspoken that the Governor even called me out on his own social media and slammed me. I believe that adults should have the right to make their own decisions about what gets put in their body — whether it be food, medicine, prescription medication, and/or vaccinations."

- As Chair of Health in 2021, he worked behind closed doors to sabotage HB 248: The Vaccine Choice & Anti-discrimination Act while pretending to support the bill in hearings.

- Conspired with House Speaker Cupp to remove HB 248 bill sponsor (Rep. Gross) from the Health Committee.
 - On record calling the volunteer president of OAMF "a terrorist and a fool."
- Told a constituent mom of a vaccine injured child, "I can't help you if you are a volunteer for OAMF" because "OAMF is a terrorist organization!"
- Refused to allow testimony on mask choice legislation (HJR4)
- Voted correctly on HB 73 & HB 236

"One of the fundamental responsibilities of state government is to safeguard the rights of individuals, including the right to make informed healthcare decisions. I support and respect every individual's ability to receive or decline a medical intervention, including vaccination. As governor, I will stand with Ohioans to restore medical freedom through thoughtful policy action, rather than just angrily worded tweets. I am prepared to confront entrenched interests when necessary to ensure that patients and doctors, not bureaucrats, are in charge of their own healthcare decisions. Once elected Governor, my door will remain open for constructive engagement with stakeholders such as OAMF as we work together to protect individual rights and freedoms here in Ohio."

- Candidate had an in person policy meeting with OAMF re: HB 12 Right 2 try and HB 112 - Right 2 Refuse
- Candidate made a public endorsement of HB 12 in social media videos.

"The right of Americans to autonomously make medical decisions for themselves and their minor children and loved ones who are incapable of making their decisions, without interference from the government, or discrimination based on their decisions. I also believe medical freedom includes privacy of records and nothing should be shared that would bias anyone relative to medical choices they've made. Freedom also includes full transparency and due process, with a duty to people-not businesses that benefit from illness, vaccines and pharmaceuticals."
